Technology Consulting Service Summer Internship

PCS is a Technology Consulting company located in Wadsworth Ohio and we are looking for a motivated college Junior or Senior majoring in Computer Science or Computer Engineering that would like to gain real world experience working side by side with experienced computer professionals. The successful candidate will get the chance to work with our Software Developers, System and Network Administrators, Project Managers and Technical Sales professionals on real projects for real customers. Our goal is to help guide the next generation of professionals entering our industry. We believe so strongly in helping students develop professional skills that one of your assignments will be an independent project to design, develop and implement a 2 week long internship program for 4 high school students working towards their STEM Honors Diploma. This will give you an opportunity to experience working as a technical lead while showing off your technical skills, all while you help guide these students as they prepare to enter a college curriculum similar to your own.

This is a paid internship that will run from 5/24 till 8/21, working 40 hours/week at our Wadsworth facility. For more information and to apply, go to <https://www.palittoconsulting.com/internship2018> . The application deadline is 4/2/18.
