When you graduate, what job/role will you be seeking and what specific technology would you want to be working with?

Did you read the entire job description on the [preceding web page](https://www.palittoconsulting.com/job_opportunities/college-internship-2018/) (https://www.palittoconsulting.com/job_opportunities/college-internship-2018/) before you clicked the apply button and are you committed to working the entire summer? This is important because four other interns will be counting on you for the final 2 weeks of your internship.
